

The Committee on Finance (π259.4) has responsibility for developing annually a complete budget for the church's ministry and operation, which is presented to the Council for review and adoption. It also has the task of developing and implementing plans to secure sufficient income for the budget. The committee oversees the process of receiving and, through the Treasurer, disbursing funds according to the direction of the Council and makes a report on the financial status of the church at each Council meeting. The minimal membership of the committee would include the chairperson, church lay leader, Church Council chairperson, treasurer, and pastor.
